Corporate Services

It is a fact that corporations throughout the world are major owners and investors in real estate; however, their core business is not real estate and its management. Concourse Realty Group recognizes this fact and offers a variety of services to assist corporations with the ownership and management of their real estate investments. We provide a best practices approach aligning our client's commercial real estate needs and requirements with the ever changing demands of its business. Our corporate services include, but are not limited to, the following services:

- Site Analysis and Acquisition
- Due Diligence Services
- Fee Development Services
- Property and Loan Workout Services
- Strategic Facilities Planning and Management
- Program and Project Management
- Lease *versus* Buy Analyses
- Consulting and Advisory Services
- Transaction Negotiation
- Cost Analysis, Financial Engineering and Capital Structuring
- Strategic Planning for Properties or Portfolios of Properties
- Transactional and Management Assistance at the Corporate, Asset or Portfolio Level

Development Services

Concourse Realty Group has substantial experience in the area of commercial real estate development acquired through many years of hands-on experience in the U.S. and internationally, and advises owners, investors and lenders with their investment projects and portfolios. In fact, a Concourse Realty Group principal teaches a premier and sought out course in the subject in the graduate degree and non-degree programs of a major university.

The scope of our Development Services varies and is customized to client needs. The development investment process is outlined from the beginning with a Feasibility Report or business plan. The benefit of these services to our clients is to create value, maximize returns and minimize risks. These services can be broken down into the following general categories:

- Development Advisory Services
- Fee Development Services
- Principal Development Services

We find it astounding that an owner or investor would put tens or hundreds of millions of dollars at risk in a real estate investment, but not be willing to spend a few thousand dollars to validate his proof of concept or refine a particular initiative. An engagement for Development Advisory Services is the most cost effective form of risk management for your project. We have a tremendous amount of flexibility in how we structure our fees and endeavor to make sure that a client's investment in Development Advisory Services adds to the value of a project.

Due Diligence Services

Concourse Realty Group assists our clients with property or portfolio pre-acquisition analysis (or preparation for disposition) otherwise known as due diligence. Due diligence often may also result from Workout Services for distressed properties or loans. Investment banks and funds often refer to due diligence done on a quarterly or annual basis for assets owned as surveillance.

We can provide financial analyses, extensive due diligence studies and act as negotiator or in support of negotiations on behalf of ownership. Our objective is always to assemble relevant information to support our client's critical decision-making.

The services can include, but are not limited to:

- Property and Site Inspections
- Financial Analysis and Review
- Due Diligence for Existing Contracts and Leases

In addition, Due Diligence Services often extend in areas of:

- Due Diligence for Prospective Joint Ventures and Partnerships
- Deal Negotiations Support

for additional information

Equity Services

Concourse Realty Group can form an equity fund on a client's behalf and then function as a fund manager once the fund closes.

Concourse Realty Group will prepare the necessary documents (offering memorandum and related schedules, filings, etc.) and coordinate with the attorney of your choice. By using our services, we draft the vast majority of the necessary documents merely submitting them to an attorney for legal review and compliance thus saving our client/sponsor significant sums as opposed to having an attorney do the drafting.

The following are some points to consider when choosing to work with Concourse Realty Group to establish an equity fund:

- Experience
- Cash Flow Approach
- Leverage
- Strategic Placements of Capital
- Asset Location
- Exit Strategy

Portfolio Services

Real estate projects are more than bricks and mortar. Real estate investment today is viewed as an alternative asset investment class particularly as a result of the large number of institutional investors from the U.S. and overseas investing in real estate. Once a project is successfully planned, structured, and constructed, the ultimate success of the project, *i.e.*, reaching its highest value, will be achieved through judicious and proper use of people, systems, leasing, financing and property management.

Concourse Realty Group understands market cycles and advises on critical buy/sell/hold decisions in asset management. We strive to uncover any opportunities to unlock potential and realize increases in asset value that would go unrecognized in many circumstances whether the challenge relates to leasing risk, achieving operational efficiencies, a capital improvement plan to enhance the asset or an overall asset repositioning strategy.

Our Asset and Portfolio Management Services are often preceded by establishing an investment fund for our clients who also use our Equity Services.

Property and Loan Workout Services

Concourse Realty Group can provide aggressive and hands-on assistance in workouts of distressed loans or properties. We structure with our client, a "hands on" asset management assignment or specific technical studies in support of a client's in-house efforts. The scope and emphasis of the work product will vary based on the results of initial property review, or it may be directed by a client-approved Asset or Portfolio Business Plan, and often starts with our Due Diligence Services.

As an agent of ownership or lender (our client), some of the activities that Concourse Realty Group can provide in a particular asset workout plan include:

- Property Inspection
- Deal Restructuring
- Competitive Market Survey
- Property Operations
- Alternatives Review / Property Re-Positioning
